EDUCATION

Dokuz Eylul University **2019-2023**
computer engineering student in my third year

ABOUT ME

I am a computer engineering student in my third year at Dokuz Eylul University. I have a strong foundation in programming and problem-solving, and I have experience working with languages including Python, Java, C#, Flutter, Dart, and Firebase. I have worked on projects involving data analysis and software development, and I am always eager to learn and expand my skillset.

LANGUAGES

Language		Level
Arabic		%100
English		%83
Turkish		%80

EXPERIENCES

Flutter:
Flutter: I have developed two Android apps, available on Google Play with over 5000 downloads. link

Dart:
I have experience using Dart in conjunction with Flutter to build mobile apps.

Java:
I have experience using Java in university projects, including a student dormitory management system that incorporated object-oriented programming and user interface design.

C#:
I have experience using C# in university coursework.

C:
I have experience using C in university coursework, including projects related to operating systems.

WEB:
I have basics of HTML ,CSS,Java script, SQL DB, Mongo DB , NodeJs and Express framework.

OTHER

In addition to my practical experiences listed above, I have also taken a number of courses at university related to operating systems, computer architecture, computer circuits, math, theory of computation, and object-oriented programming. These courses have provided me with a strong foundation in computer science principles and have helped me develop my analytical and problem-solving skills.
